

This is the architecture document I would want both **GitHub Copilot Luna (Technical Architect)** and **Hermes-Coder (Implementation Lead)** to align around. It moves HVE-Life-OS beyond "an AI assistant" into a formally structured **Human Value Operating System** built on Hermes.

Hans Westphal

HVE-Life-OS Logical Architecture

Human Value Operating System (HVOS)

Foundational Premise

Most AI systems optimize for:

- answering questions
- completing tasks
- generating content

HVE-Life-OS optimizes for:

Human Value Creation Across Five Dimensions of Wealth

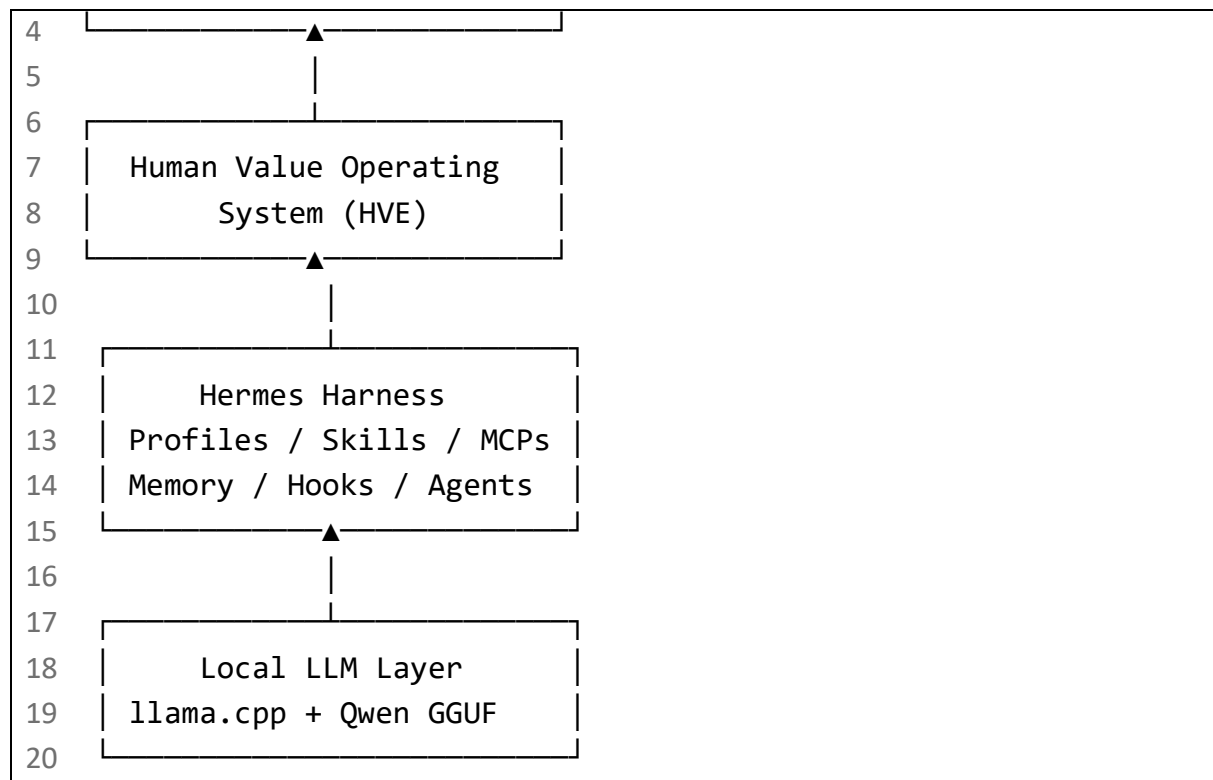

- Time Wealth
- Physical Wealth
- Mental Wealth
- Social Wealth
- Financial Wealth

The AI does not exist to produce answers.

The AI exists to help users make better decisions and improve Human Value outcomes over time.

Architectural Stack

1	
2	User Experience
3	PWA / Chat / TUI / API

Core Architectural Principle

Hermes supplies:

- 1 Agent Infrastructure

HVE supplies:

- 1 Human Value Intelligence

Therefore:

- 1 Hermes = How
- 2
- 3 HVE = Why

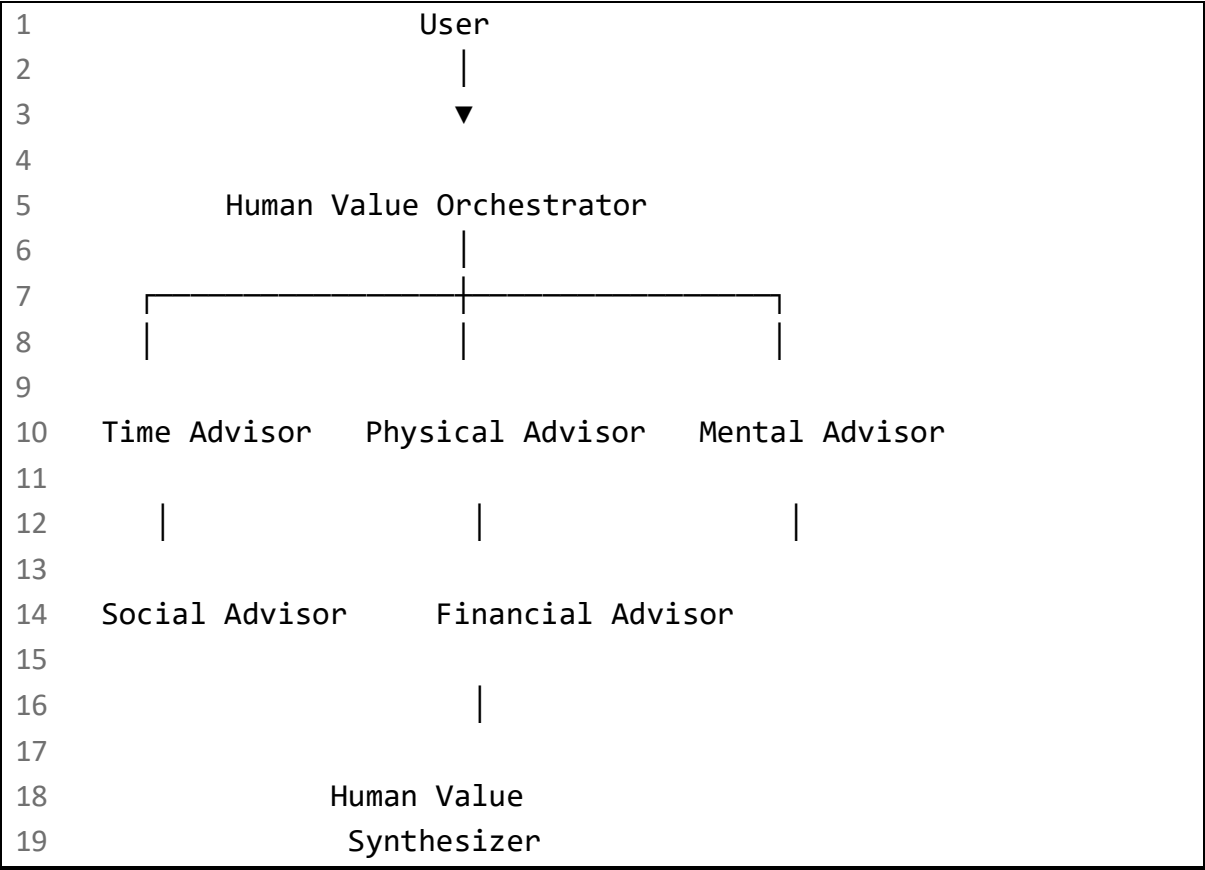

The Board of Directors Model

This becomes the primary conceptual model of the system.

The user is not talking to a chatbot.

The user is consulting their personal Board of Directors.

Human Value Board

Mapping To Hermes

Level 1

Hermes Profiles

Each Board Member is a Hermes Profile.

A profile contains:

- 1 SOUL.md
- 2 Memory
- 3 Skills
- 4 Conversation History
- 5 Tools
- 6 Permissions
- 7 Configuration

Profiles are persistent.

Profiles represent expertise.

Profiles are long-lived.

Profile 1

Time Wealth Advisor

Mission

Maximize Time Wealth.

Evaluates

- | | |
|---|------------------|
| 1 | Focus |
| 2 | Attention |
| 3 | Calendar |
| 4 | Commitments |
| 5 | Goals |
| 6 | Opportunity Cost |

Memory

- | | |
|---|--------------------|
| 1 | Calendar |
| 2 | Projects |
| 3 | Life Goals |
| 4 | Historical Reviews |

Skills

- | | |
|---|-------------------|
| 1 | Time Audit |
| 2 | Priority Analysis |
| 3 | Weekly Planning |
| 4 | Commitment Review |

Profile 2

Physical Wealth Advisor

Mission

Maximize Physical Wealth.

Evaluates

- 1 Energy
- 2 Sleep
- 3 Nutrition
- 4 Exercise
- 5 Recovery

Memory

- 1 Health Data
- 2 Fitness Goals
- 3 Wellness Notes

Skills

- 1 Energy Review
- 2 Fitness Analysis
- 3 Recovery Assessment

Profile 3

Mental Wealth Advisor

Mission

Maximize Mental Wealth.

Evaluates

- 1 Learning
- 2 Reflection
- 3 Emotional Regulation
- 4 Purpose
- 5 Cognitive Growth

Memory

- 1 Journals
- 2 Learning History
- 3 Personal Reflections

Skills

- 1 Reflection Analysis
- 2 Learning Review

Profile 4

Social Wealth Advisor

Mission

Maximize Social Wealth across all relationship rings.

Social Wealth Ring Model

Ring 0

Relationship With Self

Foundation of all Social Wealth.

Measures:

- | |
|--|
| <ol style="list-style-type: none">1 Self Trust2 Self Awareness3 Integrity4 Alignment5 Personal Growth6 Emotional Regulation |
|--|

Ring 1

Family

- | |
|--|
| <ol style="list-style-type: none">1 Partner2 Children3 Parents4 Extended Family |
|--|

Ring 2

Friends

- | |
|--|
| <ol style="list-style-type: none">1 Close Friends2 Professional Friends |
|--|

3 Trusted Relationships

Ring 3

Clients

- 1 Client Trust
- 2 Value Creation
- 3 Business Relationships

Ring 4

Mentors

- 1 Teachers
- 2 Coaches
- 3 Advisors
- 4 Guides

Ring 5

Community

- 1 Professional Groups
- 2 Volunteer Work
- 3 Faith Communities
- 4 Social Groups

Social Wealth Skills

- 1 Relationship Audit
- 2 Family Impact Review
- 3 Mentor Assessment
- 4 Community Engagement Review
- 5 Ring 0 Self Alignment Review

Profile 5

Financial Wealth Advisor

Mission

Maximize Financial Wealth.

Evaluates

- 1 Income
- 2 Assets
- 3 Liabilities
- 4 Cash Flow
- 5 Risk
- 6 Investments

Skills

- 1 Financial Review
- 2 Cash Flow Review
- 3 Retirement Projection
- 4 Opportunity Analysis

Profile 6

Human Value Synthesizer

This is the most important profile.

Without it:

- 1 Five advisors
- 2 =
- 3 Five opinions

With it:

- 1 Five advisors
- 2 =
- 3 One Human Value recommendation

Role

Resolve conflicts among wealth domains.

Example:

```
1  Financial:
2    +18
3
4  Time:
5    -10
6
7  Social:
8    -8
9
10 Mental:
11   -5
12
13 Physical:
14    0
```

Synthesizer:

```
1  overall:
2    -5
3
4  recommendation:
5    Financial gain does not outweigh
6    the long-term Time and Social
7    Wealth costs.
```

This profile serves as the CEO of the Board.

Human Value Orchestrator

The orchestrator is the chairperson of the board.

Its responsibilities:

```
1  Interpret request
2  Identify wealth domains
3  Route work
4  Launch agents
5  Collect findings
6  Escalate conflicts
7  Generate final review
```

The Orchestrator should not perform analysis itself.

It coordinates.

Sub-Agent Layer

Profiles should remain thinkers.

Sub-agents perform work.

Rule

Profiles = Experts

Sub-Agents = Workers

Example

Financial Advisor receives:

1 Review Q3 Financial Position
--

Financial Advisor launches:

1 Transaction Analyzer
2 Cash Flow Analyzer
3 Investment Analyzer
4 Budget Analyzer

Results return.

Financial Advisor interprets.

Core Sub-Agent Catalog

Data Collection

1 Spreadsheet Reader
2 Calendar Reader
3 Markdown Reader
4 Journal Reader
5 Document Reader

Analysis

- | | |
|---|-------------------------|
| 1 | Trend Analyzer |
| 2 | Score Calculator |
| 3 | Goal Alignment Analyzer |
| 4 | Relationship Mapper |

Reporting

- | | |
|---|-------------------|
| 1 | Dashboard Builder |
| 2 | Scorecard Builder |
| 3 | Summary Generator |

Import

- | | |
|---|-----------------------------|
| 1 | Excel Importer |
| 2 | Advisor Transcript Importer |
| 3 | Client Discovery Importer |

Hermes Skills = HVE Product Features

Skills should become the primary unit of product capability.

Wealth Assessment Skill

Produces:

- | | |
|---|-------------------------|
| 1 | Current Wealth Baseline |
|---|-------------------------|

Weekly Review Skill

Produces:

- | | |
|---|---------------------------|
| 1 | Five Wealth Weekly Report |
|---|---------------------------|

Decision Analysis Skill

Input:

- | | |
|---|--------------------------------|
| 1 | Should I accept this new role? |
|---|--------------------------------|

Output:

- | | |
|----|----------------------------|
| 1 | Time Impact |
| 2 | |
| 3 | Physical Impact |
| 4 | |
| 5 | Mental Impact |
| 6 | |
| 7 | Social Impact |
| 8 | |
| 9 | Financial Impact |
| 10 | |
| 11 | Overall Human Value Impact |

Advisor Roundtable Skill

Launches:

- | | |
|---|-------------------|
| 1 | Time Advisor |
| 2 | Physical Advisor |
| 3 | Mental Advisor |
| 4 | Social Advisor |
| 5 | Financial Advisor |

Collects analysis.

Generates board report.

Life Ledger Review Skill

Reviews:

- | | |
|---|-------------|
| 1 | Decisions |
| 2 | Outcomes |
| 3 | Commitments |
| 4 | Goals |

Measures effectiveness over time.

Life Ledger Architecture

The Life Ledger becomes the persistent memory system for Human Value.

Not chat history.

Not notes.

A structured record of life.

Core Objects

- | | |
|---|------------|
| 1 | Decision |
| 2 | Commitment |
| 3 | Goal |
| 4 | Event |
| 5 | Outcome |
| 6 | Review |

Example

1	decision:
2	Accepted Promotion
3	
4	advisor_predictions:
5	financial: +15
6	social: -6
7	time: -8
8	
9	actual_outcome:
10	financial: +12
11	social: -11
12	time: -9

This allows HVE to learn from reality.

Scheduled Intelligence

Hermes Cron Jobs become proactive Human Value workflows.

Daily

- | | |
|---|--------------------|
| 1 | Daily Wealth Brief |
|---|--------------------|

Review:

- calendar
 - journal
 - goals
-

Weekly

1 Five Wealth Scorecard

Monthly

1 Advisor Roundtable

Quarterly

1 Human Value Board Review

Equivalent to a board meeting for one's life.

Alpha V1 Scope

For Alpha we should intentionally limit complexity.

Permanent Profiles

1 Human Value Orchestrator
2
3 Time Advisor
4 Physical Advisor
5 Mental Advisor
6 Social Advisor
7 Financial Advisor
8
9 Human Value Synthesizer

Total:

1 7 Profiles

Core Skills

1 Wealth Assessment

- | | |
|---|--------------------|
| 2 | |
| 3 | Weekly Review |
| 4 | |
| 5 | Decision Analysis |
| 6 | |
| 7 | Advisor Roundtable |
| 8 | |
| 9 | Life Ledger Review |

Core Sub-Agents

- | | |
|---|--------------------|
| 1 | Document Reader |
| 2 | Spreadsheet Reader |
| 3 | Calendar Reader |
| 4 | |
| 5 | Trend Analyzer |
| 6 | Score Calculator |
| 7 | |
| 8 | Dashboard Builder |
| 9 | Report Builder |

Final Vision Statement

HVE-Life-OS is a Personal Sovereignty Operating System built on Hermes that deploys a Board of Human Value Advisors, each responsible for a specific dimension of wealth, and uses structured memory, skills, and agent orchestration to help individuals make better decisions, improve outcomes, and grow Human Value over time while keeping all data local, private, and under their control.

This is the architecture I would hand to both the Luna Technical Architect and Hermes-Coder teams as the north-star design for HVE-Life-OS.
